Bruno Aseff

Fullstack software engineer

Itajaí, SC — Brazil · 24 years old · Fluent English
brunoaseff2@gmail.com · brunoaseff.com.br
linkedin.com/in/bruno-aseff · github.com/BrunoAseff

Professional experience

Bússola Social · Wiidoo Labs

Nov 2025 — present

- Develop systems, interfaces, APIs and integrations for social organisations, cooperatives and institutions, contributing to technical decisions.
- Build AI agents and automations integrated into applications.
- Document processes and improve CI/CD pipelines with Jenkins and runtime environments.

Access Global Logistics

Feb 2025 — Nov 2025

- Developed the freight forwarding company's internal system, covering financial data, company records and employee information.
- Automated satisfaction survey emails, task creation, issue review and dashboards based on responses.
- Built an AI assistant for WhatsApp, call transcription and analysis workflows, and integrations using scraping and OCR.

Technologies

TypeScript · React · Vue.js · PHP · Laravel · Go · Docker · Linux
CI/CD with Jenkins · AI integrations · Scraping · OCR

Selected projects

Lazúli — lazuli.brunoaseff.com.br

Study platform with documents, flashcards and quizzes. Fullstack application with AI, spaced repetition and study progress tracking.

Eye Patch — github.com/BrunoAseff/eye-patch

Availability monitoring with email alerts, checks running on AWS Lambda and infrastructure defined with AWS CDK.

Education

Internet Systems — Univali

In progress. Expected graduation in the first half of 2027.

Certification

AWS Certified Cloud Practitioner — Amazon Web Services · Jun 2025
